

# Water-based Acrylic Paints for Road and Floor

## ▶ Application

- Concrete and asphalt floor surface.
- All-weather colored pavement, such as tennis court.
- Pavement and open space, etc.

## ▶ Characteristics

- Acrylic emulsion paint, combining high weather-fastness of inorganic / organic pigments and properties of acrylic resin.
- Over 30 years of sales performance.
- Blistering is hard to occur because of its high moisture permeability. (But recoating for repair may cause the problem.)
- We provide hard / soft type.
